## Packaging

To ensure that your premium quality products arrive in perfect condition, we at Pelham & Talbot use only the most innovative ways of packaging:

All meat contained within our prepared boxes is vacuum packed to maintain its quality and when opened will be as fresh as when it was cut. These packs take up very little room in your fridge and are suitable for home freezing, protecting your meat from freezer burn. Each pack will be clearly labelled with a 'best before date'. All items are placed in strong re-useable, polystyrene cool boxes, surrounded by protective packaging and frozen gel packs which ensure that the products remain at the correct temperature during transit and arrive with you in perfect condition.

## Frozen – If you would prefer

To retain the nutrients, taste and quality of your meat, you may prefer to request that we professionally freeze your order at no extra cost. Our freezers are capable of freezing your items much faster than in domestic freezers helping to prevent bacterial development and retaining moisture so your meat remains succulent when cooked. As each item is conveniently packed and labelled it will arrive frozen solid and ready for you to put straight into your freezer for you to use as you require.

All hampers or products marked \* are supplied as 'FROZEN ONLY'.  
All hampers or products marked 'C' are supplied as 'CHILLED ONLY'

Please note that for health and safety reasons, we cannot despatch chilled and frozen items together, some products cannot be supplied frozen, such as smoked salmon and some deli items, so hampers containing these items will be marked as, supplied 'Chilled Only'.
